Sadly, this is a necessary subject to discuss even in the Christian community.

Topics that will be covered include:

- What are steps that the church/ consistory should take?
- What do we need to understand about victims of this abuse?
 - How is this abuse often hidden from others?
 - What signs should alert us to this problem?
 - When should legal separation be pursued?
- How can young people recognize abusive tendencies in dating relationships?
 - Can non-religious counseling be used?

Hear this timely instruction for all Christians!

A question and answer period will follow the lecture.
